## **U.S. CAD Becomes a VAR Gold Sponsor in the Inventor Connections Community**

U.S. CAD, the largest provider of CAD solutions in Southern California, has joined ConnectPress as a VAR Gold sponsor in the Inventor Connections Community.

U.S. CAD specializes in technology implementations through a unique mix of project assessment, analysis through implementation, process consulting, customization, custom application development, knowledge assessment, product training, project mentoring, and technical support services in building design and construction, mechanical design and manufacturing, infrastructure, civil engineering and GIS development and management.

U.S. CAD also provides a number of training options for Autodesk products. All courses are based on Autodesk recommended courses, and utilize Autodesk Official or Autodesk Approved Training Courseware materials to ensure the highest quality training materials available.

"U.S. CAD is the largest Autodesk reseller in the Western region and employs a dedicated team focused on delivering top-notch training and implementation services. It is natural for us to partner with ConnectPress to help deliver support to their audience," commented Jonathan Landeros, Director of Manufacturing Solutions. "We assist our customers to achieve more with their long-term software investment."

"ConnectPress is delighted to welcome U.S. CAD as a VAR Gold Sponsor in our Inventor Connections' Community," said ConnectPress Associate Publisher Shannon Hanson. "U.S. CAD has a unique dedication to helping business partners realize success with CAD technology and services. They understand their customers, and the technology they represent. We're looking forward to the new opportunities this partnership brings."

### **About U.S. CAD**

Based in Costa Mesa, Calif., U.S. CAD, Inc. (formerly L.A. CAD) is a major provider of computer-aided design (CAD) consulting, training and support services, and Autodesk software solutions. Specializing in the civil, mechanical and architectural design, building-engineering and geospatial industries, the company provides technical expertise and customized training to deliver superior customer solutions. Customers value U.S. CAD's quality instruction from Autodesk Certified Instructors and Autodesk Approved Instructors, and its flexible training options, including modular mobile training labs. With Autodesk Authorized Training Centers at its Costa Mesa, Los Angeles and San Diego locations, U.S. CAD has become the Autodesk provider of choice for many of the West's leading CAD-related companies.
