## **U.S. CAD Establishes Authorized Autodesk® Dealership for Nevada and Southern Utah with Opening of Las Vegas Office**

### ***New Office Continues U.S. CAD's Targeted Growth in Western U.S.***

**Las Vegas, Nev., Feb. 9, 2009** – U.S. CAD, Inc., one of the Western U.S.'s largest providers of computer-aided design (CAD) consulting, training and support services, and the region's largest Autodesk value added reseller, has announced its expansion into Nevada and Southern Utah with the opening of its Las Vegas office. U.S. CAD will now offer its state-of-the-art solutions to the growing civil, mechanical and architectural design, building engineering and geospatial industries, as well as government agencies throughout Nevada and Southern Utah. The Las Vegas office is U.S. CAD's sixth location, joining the company's Costa Mesa, Calif., headquarters, and other facilities in Los Angeles, San Diego, Honolulu, and Guam.

"We are excited to enter the Nevada and Utah markets in order to bring our unique technologies and service offerings, and our emphasis on quality customer engagement, to the client base there," said company CEO Danny Counts. "Our new Las Vegas office will help us grow our customer base and offer solutions in that region that were previously unavailable to a range of clients and industries."

"In addition to being a world-class resort destination, Las Vegas has a dynamic business environment, which increasingly requires the kinds of specialized CAD and Building Information Modeling (BIM)-related services and products that U.S. CAD provides," Counts added. "We're excited to expand our presence into Nevada and Utah in order to help our customers achieve more."

"By moving into Las Vegas, in addition to representing Autodesk software, training and consulting, U.S. CAD brings the client base there an outlet for BIM production services for design and documentation as well as construction and coordination," said Daniel Hebert, vice president of U.S. CAD. "In turn, clients will benefit from U.S. CAD's many core strengths and capabilities. Wherever our clients

are, they now have new options for offloading production as an extension of their own production team.”

The company will hold a grand opening reception to celebrate the Las Vegas office’s establishment from 6 to 8 p.m. Thursday, Feb. 26, at the JW Marriott Las Vegas Resort (221 N. Rampart Blvd., Las Vegas). Customers and anyone interested in learning more about U.S. CAD’s products and services are invited to attend. To request additional information or register online, visit <http://www.uscad.com/LVcelebrate>.

### **About U.S. CAD**

Based in Costa Mesa, Calif., U.S. CAD, Inc. (formerly L.A. CAD) is a major provider of computer-aided design (CAD) consulting, training and support services, and Autodesk software solutions. Specializing in the civil, mechanical, architectural, building-engineering, geospatial and design visualization industries, the company provides technical expertise and customized training to deliver superior customer solutions. Customers value U.S. CAD’s quality instruction from Autodesk Approved Instructors, and its flexible training options, including modular mobile training labs. With Autodesk Authorized Training Centers (ATC) at its Costa Mesa, Los Angeles, San Diego and Honolulu locations, U.S. CAD has become the Autodesk software provider of choice for many of the West’s leading CAD-related companies. For more information, visit <http://www.uscad.com> or call (877) 648-7223.
